EDUCATION

Rice University

Houston, TX

Bachelor of Science in Computer Science | GPA: 3.81/4.00

Expected May 2029

- **Relevant Coursework:** Data Structures and Algorithms, Object Oriented Programming, Discrete Math, Linear Algebra, Probability and Statistics, Multivariable Calculus

TECHNICAL SKILLS

Languages: Java, Python, TypeScript, JavaScript, HTML/CSS

Frameworks & Libraries: React, Next.js, MapLibre, FastAPI, scikit-learn, pandas

Tools & Platforms: Git, Supabase, Vercel, Figma

Languages Spoken: English (native), Spanish (native)

EXPERIENCE

Software Developer

May 2026 – August 2026

ITWomen | Client: Feeding South Florida

Remote

- Shipped a full-stack geospatial mapping platform adopted by Feeding South Florida's COO and Program Directors
- Built the React, MapLibre, and FastAPI stack scoring tracts on seven federal poverty and food-access indicators
- Surfaced community need across 1,497 Census tracts in four counties so staff could rank a 50+ agency backlog

Algorithms Instructor

June 2026 – July 2026

Rice University Tapia Center

Houston, TX

- Taught Boolean logic and algorithm design to 600+ campers across 12 daily sessions over three weeks
- Led a capstone in which student teams designed rule-based systems to evaluate 1,000 mock university applicants
- Translated lessons into Spanish for bilingual campers, ensuring all students had equal access to STEM content

Undergraduate Research Assistant

January 2026 – May 2026

Rice University Department of Materials Science

Houston, TX

- Trained Random Forest models in scikit-learn to predict Curie temperatures of ferromagnetic materials
- Reduced prediction RMSE 40%, from 50K to 30K, through targeted data cleaning and hyperparameter tuning
- Cleaned, preprocessed, and analyzed 20,000 material samples with pandas to strengthen model reliability

PROJECTS

EquiBirth AI | AI4ALL Ignite Fellowship | *Python, scikit-learn, pandas*

May 2026 – Present

- Built an end-to-end pipeline on 3.5M CDC natality records benchmarking five model families against each other
- Automated leakage checks excluding 57 post-delivery variables, correcting an inflated 0.93 AUC-ROC to 0.65
- Developed the logistic regression model on 103 engineered pre-delivery features and audited it across seven groups

Digital Media Commons Admin System | RiceApps | *React, Next.js, TypeScript, Supabase*

Jan – Apr 2026

- Replaced 60 paper intake forms with a cloud-backed, queryable record store for Rice's Digital Media Commons
- Owned the Supabase data layer: form retrieval, frontend rendering, validation, and submission checks
- Cut check-in time 50%, from 10 to 5 minutes in end-to-end testing, by automating submission and storage

LEADERSHIP & INVOLVEMENT

Executive Board | Head of Social Media

May 2026 – Present

RiceApps, Rice University

Houston, TX

- Source nonprofit organizations as clients for student teams building free production software
- Interview and select technical leads for project teams across a 90+ member organization
- Run semester logistics and produce the content promoting club projects, events, and recruitment

Website Manager

May 2026 – Present

Hanszen College, Rice University

Houston, TX

- Ship content and layout updates to the college's static site (HTML/CSS, GitHub Pages) with a 3-person team
- Delivered the orientation-week release used by 100+ incoming students to find onboarding information

Other Activities and Societies: RiceApps (Software Developer), HSF Scholar, ColorStack, Rewriting the Code, Society of Hispanic Professional Engineers, Society of Women Engineers
